AESTHETIC FACIAL PROCEDURES

Ultrasound cleansing facial.....60 min 50 €

An ultrasound deep cleansing facial. During the procedure the outermost layer of facial skin is removed improving colour, tone, cell microcirculation and the capacity to absorb active substances. The pores are cleaned, their diameter reduced and any excess skin is removed.

Fruit acid procedure.....50 min 50 €

This fruit acid procedure, which peels off dead skin cells and stimulates new cell growth, is adjusted according to your skin type and condition. After the procedure, your skin becomes smoother and cleaner, pores are cleansed and reduced in size, the capacity to absorb moisture is improved, premature keratinization is prevented, the skin structure is improved, collagen synthesis is stimulated and the number of small wrinkles and lines are visibly reduced.

Skin types: problematic, sensitive, mature, pigmented.

Intensive moisturizing procedure.....60 min 50 €

A facial procedure to improve the moisture level of the skin. A deep cleansing lends the skin a healthy glow making it smoother, fresher and more radiant.

Strengthening facial procedure with stem cells.....75 min 60 €

A procedure that strengthens the contours of your face with a lifting effect. The procedure relaxes facial expressions making them gentler, smooths out fine lines and wrinkles and lends the skin a youthful and radiant appearance.

ANTI-AGE procedure for mature skin.....75 min 70 €

A sophisticated skin care procedure for mature skin. The procedure stimulates skin density and elasticity giving it a more toned and firm appearance, ensures the required moisture level of the skin, balances the amount of lipids and visibly reduces the number of fine lines and wrinkles.

Men's skin care procedure.....60 min 65 €

A skin care procedure created especially for men with an immediate effect that uses custom cosmetics chosen according to each person's individual skin type and condition. The procedure promotes cell regeneration and activates microcirculation, moisturises and tones the skin, slows aging processes, smooths out fine wrinkles and gives the skin a uniform tone.

Biorevitalization.....60 min 130 €

Facial biorevitalization is a procedure during which microinjections are performed. The anti-aging effect of the procedure is aimed at tissue regeneration and reconstruction. During the procedure, dosed doses of hyaluronic acid are injected into the layers of the dermis. The active substance used in the procedure is in an unstabilized state and breaks down within a week after the procedure, forming a basic base for hyaluronate synthesis and reserve replenishment.

Hyaluronic acid injections.....60 min 75 €

Hyaluronic acid injections into the skin have a higher concentration than mesotherapy injections. Hyaluronic acid is a gel-like substance with transparent and homogeneous properties. Hyaluronic acid is a substance that is a natural part of the skin and serves to maintain moisture in the tissue, slowly absorbing over time. These substances will noticeably eliminate small imperfections and signs of aging, but the skin will remain incredibly smooth.

Procedure with DERMAPEN.....60 min 75 €

It is a new stage in cosmetology, which allows you to regain younger face and body skin already after the first procedure, and without a rehabilitation period.
